

**JOB OPPORTUNITY
SONOGRAPHER, TEMPORARY PART-TIME**

Date Posted: May 4, 2022	Expiry Date: May 10, 2022
Job Number: OPSEU-05-2022	Department: Ultrasound
Position: Sonographer	Status: Temporary Part-Time (0.8 FTE)
Current Salary: \$40.53 to \$48.19	Union: OPSEU

The Ottawa Fertility Centre is a state-of-the-art modern fertility treatment center that provides comprehensive diagnostic and treatment services to its patients. The Ottawa Fertility Centre is accredited by Accreditation Canada and pursues standards of excellence in all areas of its operations. We are an equal opportunity employer and encourage staff growth and development.

Reporting to the Clinical Manager, the Sonographer contributes to the Centre's vision of becoming nationally recognized as Canada's premier centre for reproductive medical care. The performance of ultrasound examinations during fertility treatments and investigations is crucial to the operations of the Ottawa Fertility Centre. Accurate and consistent measurements are critical to the success of ART cycles. With this in mind, the sonographer has a very important and specialized role in the Ottawa Fertility Centre.

The sonographer is responsible for the performance of ultrasound examinations as per the AIUM standards for gynecology and early obstetrical ultrasound, accurate and consistent measurement of fertility related sonographic features (follicle diameters, endometrial thickness, antral follicle counts, etc), and trans-abdominal guidance for embryo transfers. The sonographer also will input reports into a PACS system for physician reporting. Housekeeping duties will include appropriate cleaning of endocavitary probes that is consistent with the High-Level Disinfection standards from the CSA and CPSO, and proper set up and cleaning of the ultrasound rooms between examinations.

Responsibilities and Duties

- Contribute to the ongoing improvement of ultrasound services, procedures, and standards in the Centre
- Comply with CSA and CPSO policy for HLD of endocavitary probes
- Perform ultrasound examinations on infertility patients using standard AIUM guidelines, including; gynecological scans, transabdominal, transvaginal gynecological and follicle tracking scans
- Complete early obstetrical scans and rule out ectopic examinations
- Conduct saline infusion sonography +/- tubal patency studies with agitated saline
- Input examination results into PACS for physician reporting
- Assist in embryo transfer procedures using trans-abdominal ultrasound guidance by providing ultra sonographic guidance to physicians performing embryo transfers.
- Properly clean and disinfect endocavitary probes

Qualifications and Experience

- Maintain current CMRITO license – DMS
- Current and up-to-date Sonography Canada registration required or equivalent
- Certification - as CRGS or RDMS (OB GYN) desirable
- Current BLS required
- Experience and comfort with transvaginal sonography
- Oral, written and reading comprehension in both English and French is considered an asset

Knowledge, Skills and Abilities

- Strong working knowledge of MS Office applications (Word, Excel, PowerPoint, and Outlook)

The Ottawa Fertility Centre is committed to accessible and equitable employment practices. If you require an accommodation to participate in the recruitment and selection process, please inform Human Resources to discuss your individual accessibility needs. All requests for accommodation will be considered in a fair and objective manner, ensuring that all applicants are treated with respect and dignity.

OTTAWA FERTILITY CENTRE
CENTRE DE FERTILITÉ D'OTTAWA
